¹ Prices include shipping.

² As a tax exempt organization we don't owe this tax but it wasn't worth the effort to avoid paying it. All other expenses were tax free.

³ Required for proof of U.S. residency in order to download the free BridgeTab app from the Amazon App Store. Some apps are restricted to certain geographical location. Using a prepaid credit card avoids linking the unit Amazon account to unit finances or my personal finances, limiting exposure to accidental purchases made on the Kindle Fires.
